Dog order

Dear camping guests in attend with dogs, we welcome you and your dog and wish you a pleasant stay. Because of hygienic reasons, we like to keep your attention to the following points:

Hold your dog on a short leash on the camping ground and walk strictly on the lanes with them. You avoid the call of the nature at every corner.

Dogs are forbidden on the whole beach area at the camping ground including the dunes, in and at the reed around the lake, the large meadow in front of the camping ground and other playgrounds around!

It is also not allowed to bring the dogs into the market and the sanitary buildings!

Lead your dog on the right side of the road (view from the reception) to walk them in direction of the "Kapellenwald" (Chapel forest), which is proper to take a walk.

Also the area east of the camping ground is nice for a dog walk; there bathing in the Baltic Sea for dogs is allowed too.

If it has happened, that the dog left its dropping on the camping ground, the parking lot or the lanes that lead to the forest, please remove it immediately! We offer you free bags at our reception for this.

The used bags will be taken at our waste collection place from 10-11am and from 15-16pm as residual waste.

Thank you for your understanding on behalf of all our guests.

The owners and staff
